

# Mozambique Bank

## Completion of the New Headquarters of the Banco de Mozambique

The last phase of the works on the new Headquarters of the Bank of Mozambique is completed.

The three buildings that constitute the new Headquarters were inaugurated in July 2017 by the President of Mozambique, occupying a total area of 87,500m2.

In December, the Technical Center that houses several energy and air conditioning equipment was completed. The new projected areas were also completed: Museum, Auditoriums, Archives and Library.

In this project of great magnitude the companies of the VINCI Energies Group that participated were: SotMoz and Sotécnica (special installations), Actemium (GTC) and Axians (IT infrastructures), using brand synergies to complete this project with great success!
