

# Axians: Working at the heart of the digital transformation

Axians is the VINCI Energies brand dedicated to information and communications technology (ICT). The brand supports its customers – enterprises, the public sector, carriers and service providers – from IT infrastructure and services to digital transformation.

Axians Portugal, a multinational with an internationalization strategy from Portugal to the world, has a wide range of solutions and services in applications, cloud, managed services, data systems and centers, enterprise networks, collaboration solutions and telecommunications infrastructure.

## Best-in-class solutions to boost efficiency and performance

Aware of the impact that ICT currently has on people and companies, Axians Portugal designs solutions using innovative methodologies such as design thinking and gamification, which meet the specific needs of different sectors of activity. It is also committed to finding efficient responses to the major challenges facing communities.

At Axians Portugal, it is focused on digital transformation, but with the certainty that the effectiveness of these solutions and answers passes in 10% by technology and 90% by people. This is what you mean when you say: the best of ICT with a human touch.
